

# Version 23.3.1ab Release Notes (Command Center)

Last Modified on 12/14/2023 1:52 pm EST

## Improvements

- We removed the Command Center Administrator’s ability to edit closed and closed-completed activities.
- The Escalated to Incident workflow name was changed to Closed – Escalated. The state was also changed from Active to Complete, and an action was added to set the closing date on transitions.
- The **Treat value as null** setting was changed to equal true for the **Arrived Date/Time and Cleared Date/Time** variables on the **Time On Site** formula.
- We added a Complete trigger and action to set the **Close Date** field for all transitions that move the form to closed for the Closed – Completed transition. We also set the Close Date to Read Only on all Activity forms.
- We updated the Activity Type Categories and Subcategories within the Command Center app base. The following outlines the new list of Categories and Subcategories:

<b>Subcategory</b>	<b>Category</b>
Patrol	Security Response
Electrical	General Assistance
Jump Start	Emergency Response
Damage	Dangerous Condition
Manmade	Property
Vehicle Lock Out	Disaster
Biohazard	
Construction	
Travel	
Lost
