

## Edit or Delete a Trigger, Transition, or Action

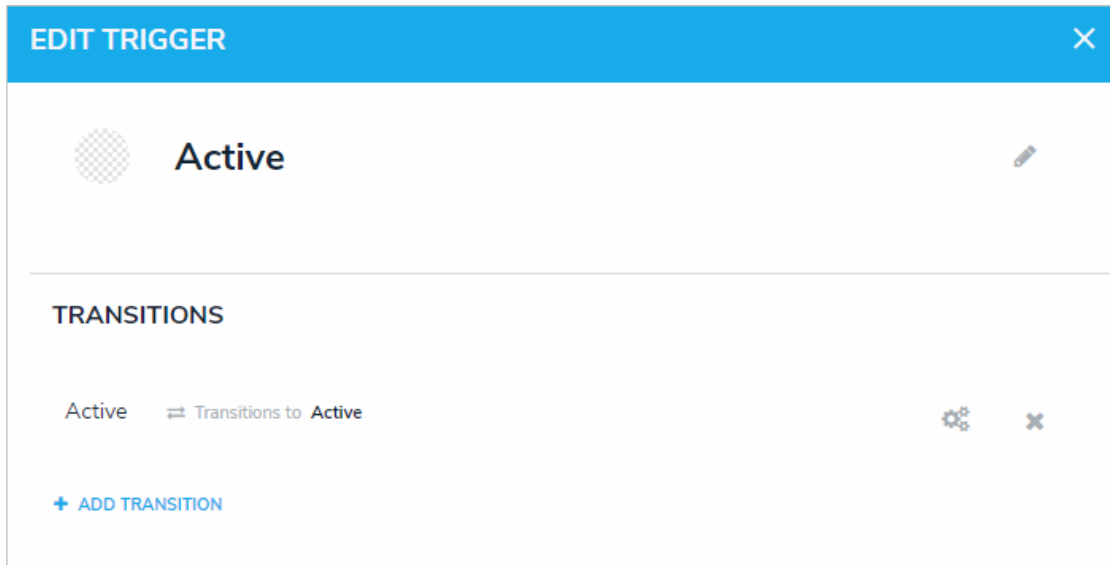

### To edit or delete a trigger, transition, or action:

1. Click the  icon in the top bar > **Object Types** in the **Data Model** section.
2. Click **Configure Workflow**. If there are multiple workflows saved to the object type, click one in the list.
3. Click the trigger you want to edit or delete to open the **Edit Trigger** palette.

*Clicking a trigger to open the Edit Trigger palette.*

4. To edit a trigger:
  - a. Click the  beside the trigger name to show the trigger settings.
  - b. To change the trigger type, select one from the **Type** dropdown menu. See [Add a Trigger & Transition to a State](#) for more information on the different trigger types.
  - c. Make changes to the name, description, and color, as needed.
  - d. To delete the trigger, its transitions, conditions, and actions, click **Delete**.
  - e. Click **Done** when finished.
5. To edit a transition:
  - a. Click the  icon in the **Transitions** section.

*Transitions on a trigger. Settings can be accessed by clicking the gear icon beside the transition.*

- b. Make changes to the transition name and destination state, as needed.
  - c. To edit or delete a condition or action saved to a transition, click the  icon beside the action or transition.
  - d. To delete the transition and any actions or conditions added to it, click the  icon, then click **Yes** to confirm.
6. Click the  icon when finished.
