Markdown Formatting Overview

Last Modified on 10/13/2020 4:09 pm EDT

Markdown formatting is used to apply simple styling to text. Administrators can apply Markdown to the following items:

- Fields (Long Name)
- Standard configurable forms (Free Form Text)
- Reports (Free Form Text)
- Email Templates
- Activities (Description)
- Views (Description)

See the Supported Markdown Styles article for more information on applying these styles.
