Printing Overview

You can print a form directly from your browser by pressing Ctrl + P (Windows) or Cmd + P (Mac).

To include additional graphics, such as the color of a unique ID or current workflow state, follow the instructions below:

1. Click Ctrl + P (Windows) or Cmd + P (Mac) to open the printer settings.
2. Click **More Settings**.
3. Select the **Background graphics** checkbox.

See the Print from Chrome article from the Google Support Site for more information.

i	If you're printing a report, export the report to PDF and then print.

i	If a form is not printing in color, check your printer's settings.
