

Edit or Delete a Form Section

Last Modified on 03/29/2022 5:20 pm EDT

To edit or delete a form section:

1. In the Views>Configurable Forms top bar section, select the relevant form.
2. To reposition a section on a form card, click the  icon in the top-right corner of the section, then drag and drop it to a different area on the canvas.
3. Click the  icon at the section's top-right corner to **Edit Form Section**.

Edit Form Section ✕

Section Width

✕ Enable Tabs

 **SECTION** **DONE**

The Edit Form Section screen.

4. Modify the section settings as needed.
 - See [Add a New Section to a Form](#) to enable tabbed or collapsible sections and [Control Section Visibility](#) to create new rules.
5. **Optional:** If the section is empty (i.e., it contains no elements), click the  **SECTION** icon, then Yes to confirm.
6. **Optional:** If the section contains elements:
 - a. Click **Done** to return to the form canvas.
 - b. Hover your cursor over each element in the section, then click the  icon to remove them as needed.

Removing an element from a section.

- c. Click **Yes** to confirm.
- d. Continue removing elements from the section as needed.
- e. Click the  icon at the top-right corner of the section to return to the **Edit Form Section** screen.
- f. Click the  **SECTION** icon, then **Yes** to confirm.
