Version 2.3.3 (Hotfix) Release Notes

Last Modified on 08/22/2018 9:25 am EDT

This hotfix release includes improvements and bug fixes.

Improvements

- Formulas and workflow conditions now treat blank field values as 0. This applies to the array, count, average, and sum formula sub-types.
- Clicking an Export button will now display a "Loading..." message to indicate the download will begin shortly. This applies to:

  - Org Manager;
  - Data Import;
  - Audit Trail; and
  - Languages.

Bug Fixes

- Attempting to edit an assessment workflow from the Edit Assessment page no longer displays a blank page.
- Custom logos on email templates now display in the correct size when viewing emails on Microsoft Outlook.
- Fixed an issue that prevented related objects from appearing in the Relationship column of table reports.
- Exporting a large report to Excel or Word no longer produces a 500 error.
