

Vehicle Logs Overview

A **vehicle log** records any vehicles that were involved in a dispatch. Examples of an involved vehicle can include a damaged vehicle, a stolen vehicle, or a vehicle of interest.

The screenshot displays the 'Details - Caissa Fischer' window. At the top, it shows the call ID 'CF-18' and the date 'Tuesday February 07 2017'. Below this, there are time slots for '7:56 AM' and '8:07 AM'. A status bar includes buttons for 'New', 'Unassigned', 'Assigned', 'On Route', 'On Scene', and 'Cleared'. The 'On Route' button is currently selected. To the right, it indicates 'Work Zone: King's Corner', 'Call Entered By: Thoran, Randolph', and 'Dispatcher: Thoran, Randolph'. A vertical sidebar on the left contains various icons for navigation. The main content area features a search bar for vehicles, a list of saved logs, and a detailed view for a selected log. The selected log is for license plate 'ABC 123' with a 'Direct Involvement' status. A thumbnail image of a white SUV is shown next to the log details. Below the details, there is a 'Notes' section containing the text 'Stolen from the parking lot.' The bottom right corner of the interface has an 'Auto-Focus' button.
