Important Notes About This Guide

Last Modified on 01/30/2024 10:43 am EST

Overview

This guide covers how to install and configure the C-Cure connector and its plugin. Before completing the steps in this guide, you must speak to your CSM about installing and configuring Connect and the Dispatch connector.

Related Informaton/Setup

Please refer to the Software House C-Cure Connector Installation Guide for information on installing the C-Cure connector.

Please refer to the Connect User's Guide for more information on editing the connectors, registering and mapping devices, and creating rules.
