

## Change Your State

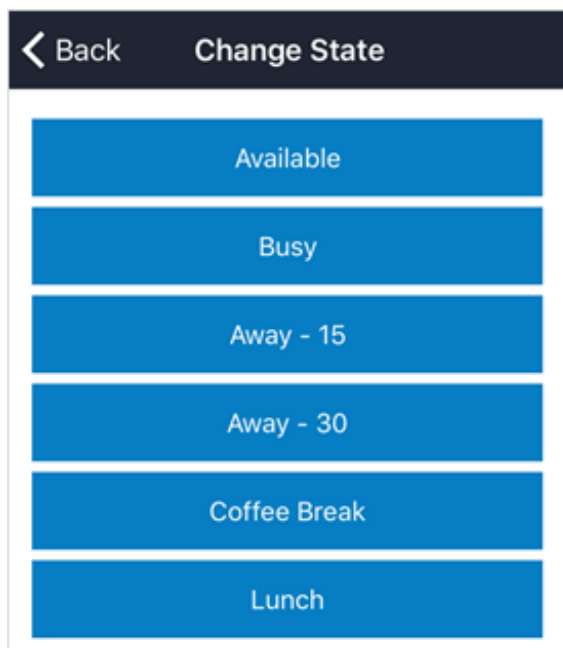

Your state (or status) controls how you will appear in Dispatch and is determined by selections made in this section or by your current state on a task (i.e. Assigned, On Route, or On Scene).

You can also change your state by tapping your profile image or the default officer icon from the dashboard.

### To change your state:

1. Tap **Profile** from the dashboard.
2. Tap **Change State**.
3. Tap a state to select it.

*The Change State screen.*
