Version 2.8.5 (Hotfix) Release Notes

Last Modified on 08/10/2020 5:59 pm EDT

Improvements

- Improved the response time when performing the following GET API calls:

    - data/object/created

    - data/object/updated

    - data/object/deleted

    - data/object/roleMemberships/created

    - data/object/roleMemberships/deleted

- Upgraded to Node 10.

- The SP metadata URL for SSO is now publicly accessible.

- Updated the expiring SP certificate for SSO.

Bug Fixes

- Corrected an issue that caused 408 errors when uploading files.
