

## View the Portal

Any KRIs that require review appear on the [My Tasks](#) page. The **Key Risk Indicators (KRIs)** activity in the [Portal](#) allows indicator owners to view KRIs pending review, as well as the ones in a **Monitoring** workflow state.

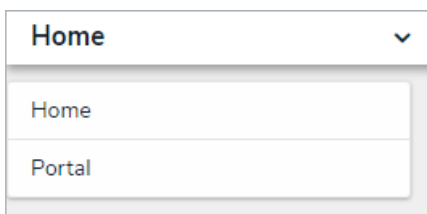

The screenshot shows the Resolver interface. At the top left is the Resolver logo. To its right is a search bar with a magnifying glass icon and a plus sign. Further right are icons for settings, help, and user profile. Below the search bar is a navigation bar with a dropdown menu currently set to 'Portal'. The main content area is titled 'Key Risk Indicators (KRIs)'. It contains three sections: 1. 'Key Risk Indicators (KRIs)' with a sub-header and a paragraph: 'The KRI portal provides an overview to all the KRIs that you have been assigned as an indicator owner.' 2. 'My Indicators Pending Update' with a sub-header and a paragraph: 'The following indicators require an update to the current value.' Below this is a single indicator card: 'I-1 Percentage of employees who have completed annual cyber security training.' To the right of the card is a blue button labeled 'Pending Update'. Below the card text is a question: 'How many employees are up to date with their training on mitigating these risks?' 3. 'My Indicators in Monitoring' with a sub-header and a paragraph: 'The following indicators are in monitoring. No action is required at this time.'
