# Create Data Definitions

Last Modified on 02/26/2025 3:41 pm EST

For more detailed information on data definitions, see the Data Definitions section in the **Resolver Core Administrator's Guide**.

To create a new data definition:

1. Click the ⚙ icon in the top bar **> Data Definitions** in the **Data Model** section.
2. Click **Create Data Definition**.
3. Enter **Company, Risk Response Plan** in the **Name** field.
4. Select **Company** from the **Anchor** dropdown menu.

The Create Data Definitions page.

5. Click the circle beside **Company** in the **Select Data Paths** section to expand the related objects.
6. Click **Risk Response Plans**, then click the circle beside **Risk Response Plan** to place a checkmark.

The Select Data Paths section.

7. Click **Create** to display the **Data Definitions** page.

8. Click **Create Definition**.

9. Enter **Risk Response Plans** in the **Name** field.

10. Select **Risk Response Plan** from the **Anchor** dropdown menu.

11. In the **Select Data Paths** section, click circle beside **Risk Response Plan** to place a checkmark.

The Select Data Paths section.

12. Click **Create**.
