# Create New Library Objects

Last Modified on 04/05/2023 5:14 pm EDT

Members of the **Risk Team** user group can use the **Library** application to create new objects, including objectives, risks, controls, and more. These objects are then available to be added to new risk assessments.
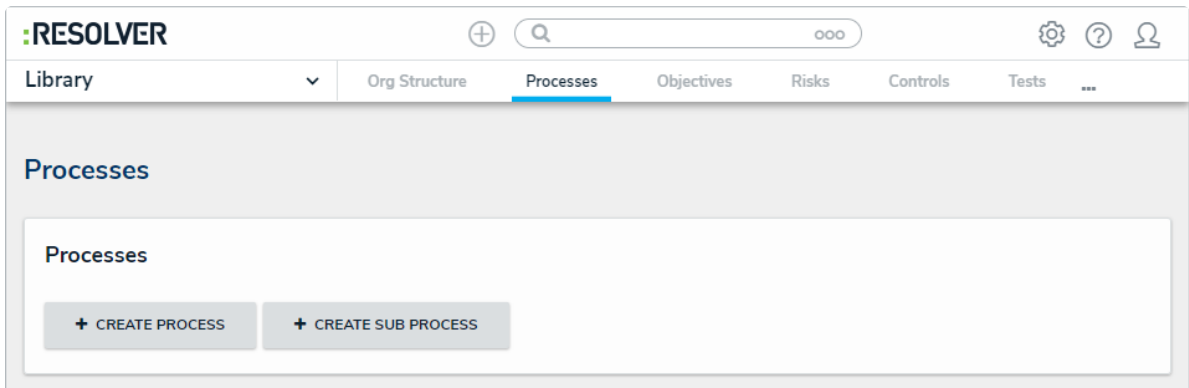

## To create new Library objects:

1. Log into a user account that's been added to the **Risk Team** user group.

2. Click the dropdown in the nav bar > **Library.**

*The nav bar.*

3. Click the tab that corresponds to the type of object you want to create, such as **Processes**, **Objectives**, or **Risks**.

4. Click the applicable button at the top of the page to add an object.

*The button for creating a new Risk Management object.*

5. Complete the fields as required. The available fields will vary depending on the object type being created.

*Creating a new Risk Management object.*

6. Click **Create**.
