Version 3.1.4

Last Modified on 12/03/2020 2:32 pm EST

Improvements

- Improved the display of formula cards on exported PDF files.
- Emails sent to SSO users now include links to an SSO-supported login page.

Bug Fixes

- SSO users are no longer shown a password prompt when their session times out.
- Issues related to updating some location addresses via Dispatch have been resolved.
- Assigning or un-assigning a user to an object with a long name no longer results in a blue screen.
