

Profile a Location

Last Modified on 04/12/2022 12:36 pm EDT

Once a location has been [created](#), it can then be profiled by the user who has been assigned as its location owner. In addition, active locations can be sent to a **Profiling** state if needed.

Assigned locations in need of profiling will show up in the user's [My Tasks](#) page, though they can also be accessed from the **Location Profiles** tab of the **Security Risk Management** app under **New Locations**.

The screenshot shows the 'Security Risk Management' application interface. At the top, there is a search bar and navigation tabs for 'Security Risk Management', 'Location Profiles', 'Asset Profiles', 'Risks', and 'Reporting'. The 'Location Profiles' section is active, displaying a '+ ADD LOCATION' button and a 'New Locations' section. In the 'New Locations' section, there is one location entry: 'Corporate headquarters - 3272 Township Road 610 Barrhead County No 11 AB CAN', which is marked as 'Profiling'.

The New Locations section in Security Risk Management.

In addition to being able to profile newly created locations, the security risk team can move an already profiled location back to the **Profiling** workflow state by opening the location profile and clicking **Profile** at the bottom of the form.

To profile a new location:

1. Click a location in the **Profiling** state to open the **Location Profiling** form.

The screenshot shows the 'Location Profiling' form for a specific location. At the top, the location name is 'Corporate headquarters - 3272 Township Road 610 Barrhead County No 11 AB CAN' with a purple 'L-51' tag and a menu icon. Below the title, there are three main sections: 'Location Photo' with a dashed box for image upload, 'Property Name' with a text input containing 'Corporate headquarters', and 'Description' with a larger text area. A navigation bar below these sections includes 'Dashboard' (selected), 'Geographic Details', 'Profiling Details', 'Assessment Details', 'Related Data', and 'Properties'. The dashboard area features three green-topped cards: 'Open Incidents' with a large '0', 'Incident Risk' with a large '0' and a '/10' indicator, and 'Person Risk' with a large '0' and a '/4' indicator. At the bottom of the dashboard are two buttons: 'FULL DASHBOARD REPORT' and 'INCIDENT TRENDING OVERVIEW'.

The Location Profiling form.

2. Log into a user account added to the **Security Risk Team** user group to display the My Tasks page.

The screenshot shows the 'My Tasks' page in the Resolver application. The top navigation bar includes the Resolver logo, a search bar, and user icons. Below the navigation, there are tabs for 'Home' and 'My Tasks'. The main content area is divided into two panels. The left panel, titled 'My Tasks', shows a task card for 'Corporate headquarters - 3272 Township Road 610 Barrhead County No 11 AB CAN' with a purple 'L-51' tag, assigned on 'Feb 26th, 2021', and a yellow 'PROFILING' button. The right panel, titled 'Location', shows a 'Workflow State' bar chart with a yellow bar at level 1 and a legend for 'Profiling'.

A new Location profile.

3. Optional: Edit the Location Photo, Property Name, and Description as needed.

4. In the Profiling Details tab:

- a. Optional: Edit the entries in the **Business Unit** and **Location Owner** fields as needed.
- b. Begin typing keywords in the **Assessment Framework** field to display a list of available options, then select the assessment framework that the location profile will be attached to.

The screenshot shows the 'Profiling Details' tab in the Resolver interface. The navigation bar at the top includes 'Dashboard', 'Geographic Details', 'Profiling Details' (which is underlined), 'Assessment Details', 'Related Data', and 'Properties'. Below the navigation bar, there are several sections:

- Business Unit:** A dropdown menu with 'Corporate' selected.
- Location Owner:** A multi-select dropdown menu with 'Security Assessment Team' and 'Security Risk Team' selected.
- Key Assets:** A section with no visible content.
- Employees:** A section with no visible content.
- Assessment Framework:** A dropdown menu with 'Enterprise Physical Security' selected.
