

Security Assessment Team Overview

Last Modified on 02/27/2025 11:02 am EST

The security assessment team is responsible for designing and launching security risk assessments. Users in the **Security Assessment Team** user group complete the following tasks:

- Create new security frameworks;
- Review profiled locations;
- Create and scope security risk assessments;
- Create and review issues and corrective actions; and
- Review SRM reports.

The screenshot displays the Resolver Security Risk Management application interface. At the top, the Resolver logo is on the left, a search bar with a magnifying glass icon and a menu icon (three dots) is in the center, and settings, help, and user profile icons are on the right. Below the header, a navigation bar shows 'Security Risk Management' with a dropdown arrow, and other tabs: 'Location Profiles', 'Assessments', 'Issues & Actions', and 'Reporting'. The main content area is titled 'Location Profiles' and is divided into two sections. The first section, 'New Locations', contains one entry: 'L-51 Corporate headquarters - 3272 Township Road 610 Barrhead County No 11 AB CAN' with a yellow 'Profiling' button. The second section, 'Locations - Profiled', includes a search bar and three entries: 'L-1 Headquarters - Riverdale Industries' with a blue 'Active' button, 'L-2 666 Eagle Crest Terrace, Arlington, FL' with a blue 'Active' button, and 'L-3 4 Waywood Hill, Fort Lauderdale, FL' with a blue 'Active' button.

The Security Risk Management app as it's displayed to a user in the Security Assessment Team user group.
