

## Security Audit Fieldwork Overview

Members of the **Security Audit Fieldwork** team are responsible for completing an assessment while it is in the **Fieldwork** state, as well as attaching issues and corrective actions to requirements that are unable to be marked as complete. Assigned assessments are accessible via the [Portal](#) or the [My Tasks](#) page.

The screenshot displays the Resolver interface. At the top, there is a navigation bar with the Resolver logo, a search bar, and utility icons (gear, question mark, user). Below the navigation bar, the 'My Tasks' section is active. It features a 'My Tasks' header with 'SORT' and 'SEARCH' options. A task card is visible for 'SFA-1 Headquarters - Riverdale Industries', assigned on 'Mar 9th, 2021', with a 'FIELDWORK' status button. To the right, a 'Security Framework Audit' workflow state chart shows a progress bar from 0 to 2, with a blue segment reaching 1, labeled 'Fieldwork'.
