

## Administrator Overview

Last Modified on 04/12/2022 1:55 pm EDT

Administrators are responsible for adding Library objects to Incident Management and Security Risk Management. Users in this group oversee the [Library](#) application to manage the reference data available to users, including locations, Security Audit Frameworks, Persons and incident types.

Watch the video below for a brief overview of the Administrator user group.

Your browser does not support HTML5 video.

The screenshot shows the Resolver application interface. At the top, there is a navigation bar with the Resolver logo, a search bar, and several menu items: Library, Org Structure (selected), Locations, People, Organizations, Vehicles, Assets, Incident Types, Activity Types, and Announcements. Below the navigation bar, the main content area is titled "Library: Org Structure". It features a section for "Org Structure" with four buttons: "+ CREATE NEW BUSINESS UNIT", "+ CREATE NEW COMPANY", "+ CREATE REGION", and "+ CREATE MARKET". Below this is a "Company" section with a card for "C-1 Riverdale Industries", which is marked as "Active". The card includes a brief description: "Since its founding in Bavaria in 1872, Riverdale Industries, Inc. has become the leading supplier of fiberboard products in Europe and North America, with offices in 12 cities worldwide, including the ...". At the bottom, there is a "Business Units" section with a search bar and two cards: "BU-2 Business Unit 1" and "BU-3 Business Unit 2", both marked as "Active". The cards contain placeholder text.
