

Administrator Overview

Last Modified on 04/12/2022 1:56 pm EDT

Administrators are responsible for adding Library objects to Incident Management and Security Risk Management. Users in this group oversee the [Library](#) application to manage the reference data available to users, including locations, Security Audit Frameworks, Persons and incident types.

Watch the video below for a brief overview of the Administrator user group.

Your browser does not support HTML5 video.

The Library.
