

## **Administrator Overview**

Last Modified on 02/18/2025 1:50 pm EST

Administrators are responsible for adding Library objects to Incident Management and Security Risk Management. Users in this group oversee the Library application to manage the reference data available to users, including locations, Security Audit Frameworks, Persons and incident types.

Watch the video below for a brief overview of the Administrator user group.

Your browser does not support HTML5 video.

The Library.
