

Add Fields to an Object Type

Last Modified on 10/02/2023 2:46 pm EDT

An object type's fields are where users will input data. Fields are available in the following formats:

- **Text:** A text field that allows for a single line or multiple lines of text, [concatenations](#), [rich text formatting](#), and [translations](#).
- **Numeric:** A field that allows for numbers.
- **Date & Time:** A picker that allows you to select the date and time. All dates and times are saved and displayed in UTC format.
- **Select List:** A dropdown menu with multiple options to choose from.
- **Attachments:** An area on the form that allows users to upload files, insert links to websites, or both. Supported document files are [searchable](#) by keywords or upload dates.
- **Image Attachment:** A field through which images can be uploaded and embedded onto a form.

All fields saved to an object type will appear on the object type's [default form](#), but you can select which fields will appear on [configurable forms](#) associated with the object type.

This section explains how to create and add fields to an object type, but you can create, edit, and delete fields from the **Fields** settings. See the [Fields](#) section for more detailed information and instructions on each field type.

To add fields to an object type:

1. Click the  icon in the top bar > **Object Types** in the **Data Model** section.
2. Click to select the object type with to configure.
3. Click the **Fields** tab.

The Fields tab with no previously added fields on the object type.

4. To create a new field to add to the object type:
 - a. Click **Add Field(s)** > **Add a New Field**.
 - b. Select a field type from the **Field Type** dropdown menu.
 - c. Enter the field's details, including name, minimum and maximum number of characters, and any other settings as needed. If needed, provide additional information or instructions on completing the field in the **Long Name** section, which can be styled using [Markdown](#).

Create a New Field ✕

Field Type
Numeric

Field Name
File Number

Long Name ?

Minimum Characters
e.g. 10, 140, etc.
Minimum Characters is optional. It must be a whole number less than or equal to Maximum Characters (if set).

Maximum Characters
e.g. 10, 140, etc.
Maximum Characters is optional. It must be a whole number greater than or equal to Minimum Characters (if set).

Number Type
Number
Normal number, currency, phone number, etc.

CREATE AND LINK

The Create a New Field screen, accessed from the Edit Object Type page.
