

During the Project: Prep & Homework

Last Modified on 06/07/2021 3:55 pm EDT

You're about to start your journey with our Professional Services team, and we're sure you're raring to go!

Here are our different project implementation packages. We'll take you through what you can expect during our time together, what you can help prepare, and things to think about as you begin the next phase of your journey with us.

Accelerated Projects

With our Accelerated projects, we can get you seeing the value of the application within 2-4 weeks. During that time, we will meet with you around 5 times.

Standard & Tailored Projects

Our Standard and Tailored Packages can get you up and running within 8-12 weeks after meeting your Professional Services team! During the project, we will meet with you at least 10 times.

Custom Projects

The duration of our Custom Projects range from 4 months to 9 months and are often multi-phase implementations. The time depends on the complexity of the project and how many applications being implemented. Stay tuned for more!
