

Anonymous Portal Overview

Last Modified on 05/20/2022 4:09 pm EDT

The **Anonymous Portal** is an application in the Admin User Interface that allows for the anonymous submission of sensitive information. For example, an Incident Submitter wants to report something to their company but is concerned about backlash for disclosing sensitive information.

External and occasional stakeholders can access the Anonymous Portal by the anonymous reporting URL link provided by their Resolver Admin and/or organizational partner. When entering their contact details on a Portal form, these Submitters can decide if they want to remain anonymous and Resolver will then generate an alias for them. This means these users don't require direct system access and because a unique email object ID gets created, they can still reply and continue the conversation without their identity being exposed.

Submit an Observation

Welcome to the Confidential Incident Submission web-portal. This avenue offers you the ability to provide vital information to our teams regarding incidents or compliments.

Please attempt to be as descriptive as possible when describing the incident, including information such as: location, involved parties, timelines and any other relevant details.

If there is an immediate threat to self or others, weapons present, indications of suicide contemplation, injuries to self or others, or any scenario that requires immediate response **seek immediate assistance by calling 911.**

Anonymous Submission Mode

The privacy of your identity is very important to us, as is the ability to interact anonymously. By default, this form assumes you would like to identify yourself. You can remove these fields and remain Anonymous by choosing "Yes" below. You are in anonymous mode when this area has a dark background.
