

Version 22.2 Release Notes (Security Risk Management)

Last Modified on 09/06/2022 10:39 pm EDT

New Features

Security Risk Management (SRM) Form UI Enhancements

- With the 22.2 application release, we have introduced a new form for Auditor/Admin view for Step: 4 Fieldwork and Review
 - LA - SRM - Monitor (Location Audit Monitor)
- With the 22.2 application release, we have updated our form layouts for the following SRM forms:
 - Country - SRM - Active
 - Risk - SRM - Edit
 - Questions - SRM - Field work
 - Sub Section - SRM - Edit
 - Section - SRM - Edit
 - LAF - SRM - Edit (Assessment
 - Question - SRM - Create
 - Questions - SRM - Edit Scoped
 - LA - SRM - Review/Fieldwork
- These form UI enhancements were made to improve users' screen utilization and to avoid them doing deep scrolls, collapsing, or expanding sections in larger forms. The SRM form layout changes include:
 - Upper-level Tabs
 - Form Layout Options
 - Separate Card Sections
 - New Headers
 - Workflow State Controls or Buttons
