

## **Adding New Elements to a Data Definition**

Last Modified on 06/13/2024 11:35 am EDT

# Overview

Users can add new elements to a Data Definition if the system indicates it is not currently being used.

### **User Account Requirements**

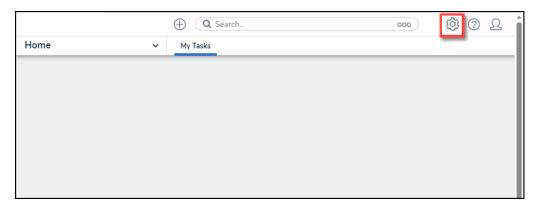

The user account you use to log into Resolver must have Administrator permission to access the Data Definition tile.

### **Related Setup/Information**

Please refer to the Create a Data Definition article for more information on creating a new Data Definition.

### Navigation

1. From the *Home* screen, click the **Administration** icon.

Administration Icon

2. From the *Admin: Overview* screen, click the **Data Definition** tile under the *Data Model* section.

		⊕ Q Search		000	\$ @ L

#### System-Generated Message

If the system-generated message indicates that you can add new elements, click on an
 **Object Type** to expand the navigation tree.

3. Select a new element to add to the Data Definition by clicking on an element.
