

Adding Geolocation Data to a Dashboard Data Set

Last Modified on 01/29/2025 4:48 pm EST

Overview

Administrators can add Geolocation data to a Data Set to create a Map Chart using the Dashboard Builder.

User Account Requirements

The user account you use to log into Resolver must have Administrator permission or Data Management advanced permissions to add geolocation data to a Dashboard Data Set.

Related Information/Setup

Please refer to the Creating a New Dashboard Data Set article for more information on adding a Data Set to the system.

Please refer to the Adding a Map to a Dashboard article for more information on creating a Map Chart Dashboard.

Navigation

1. From the *Home* screen, click the **Administration** icon.

Administration Icon

2. From the Administrator Settings menu, click the Admin Overview link.
