

Version 23.3.1ab Release Notes (Incident Management)

Last Modified on 12/14/2023 1:45 pm EST

Improvements

- We have added a **Vehicles** subtab to the **Involvements and Related Data** tab on the IM - 6 - Full - Edit form, allowing users to add Involved Vehicles to the form.
- Incidents in the Under Investigation workflow state returned for review will revert to the previous state of Under Investigation.
- The following workflow states have new two-way email notification triggers:

Workflow State	Roles
Open to Open	Email Incident Owner
Under Investigation to Under Investigation	Email Investigator
Review to Review	Email Supervisor
Closed to Closed	Email Triage By, Incident Owner, Supervisor, and Investigator

- The following changes were applied to the Item - Edit form:
 - A new card, **Details and Related Data**, was added to the form.
 - The **Properties** tab was removed from the form.
 - The **Brand Report** button was moved to the bottom left of the form.
- The following changes were applied to the Person of Interest - IM - Edit form:
 - Three new cards, **Details**, **Distinguishing Features** and **Related Date**, were added to the form.
 - The **Properties** tab was removed from the form.
 - The button triggers were moved to a new card on the form.
- The following changes were applied to the involved Vehicles - IM - Edit form:
 - A new card, **Related Data**, was added to the form.
 - The **Properties** tab was removed from the form.
 - The sections of the form were reorganized.
