

View a Report

Last Modified on 12/11/2024 3:57 pm EST

Overview

Before a report can be viewed, an administrator must create and add it to a view in an application. Some Report filters rely on the current user's time zone. Some users from different time zones may see different data in the same Report. See the [Time Zone Conversions on Reports](#) article for more information.

User Account Requirements

The data you can view in a Report depends on your role's [permissions](#) and the Report's configurations in the administrative settings.

Related Information/Setup

Please refer to the [Roles Overview](#) article for more information on role permissions.

Please refer to the [Time Zone Conversions on Reports](#) article for more information on time zones.

Please refer to the [View a Data Grid](#) and [Export Object Data from a Data Analytics Report](#) articles for information on viewing a data grid and data export Report.

Please refer to the [Export a Report](#) article for information on exporting a Report.

Please refer to the [Loading & Caching Report Data](#) article for more information on refreshing and reloading Report data.

Please refer to the [Add Repeatable Forms to a Report](#) article for more information on repeatable forms.

Navigation

1. From the **Home** screen, click the **Home** dropdown menu.

Home Dropdown Menu

2. Select **Reports** from the dropdown menu.

Reports

3. **(Optional)** If your organization has multiple Applications, select an Application by clicking the corresponding tab on the **Reports** screen.

Reports Screen Application Tabs

Viewing a Report

1. From the **Reports** screen, navigate to a Report and click the **Report** link.

The screenshot shows the 'Risk Management' dashboard. At the top, there's a search bar and navigation tabs for 'Reports', 'Risk Management', 'Risk Management (Standard)', 'Compliance Management', and 'Internal Audit'. The 'Risk Management' tab is active. Below the tabs, there are three sections: 'Corporate Risk Heat Map', 'Risk Committee Reports', and 'Issues by Business Unit'. Each section has a table with one row for 'Riverdale Industries' and an 'Active' button. The 'Risk Committee Reports' section is highlighted with a red border.

Report Link

- If a Filter is marked as **Required** by an Administrator during the Report creation, a **Filter Report** screen will appear, asking the user to fill out all required filters.

Note:

The **Run Report** button will remain greyed out until all required fields are filled out.

The screenshot shows the 'RM - Risk Committee Report' filter screen. At the top, there's a search bar and navigation tabs for 'Reports', 'Risk Management', 'Risk Management (Standard)', 'Compliance Management', and 'Internal Audit'. The 'Risk Management' tab is active. Below the tabs, there's a section titled 'RM - Risk Committee Report' with a message: 'Your report must be filtered prior to launch. To do so, please fill in all required filters and then click 'Run Report'.' Below this message, there are several filter fields: 'Control Effectiveness', 'Date Identified - Issue' (with 'FROM' and 'TO' dropdowns), 'Due Date - Issue' (with 'FROM' and 'TO' dropdowns), 'Indicator Rating', 'Issue: Issue Owner' (with a search bar), 'Priority - Issue', 'Risk Response Plan - Risk', 'Event Severity - Loss Event', 'Inherent Risk Score', 'Net Loss (USD)', and 'Residual Risk Score'. At the bottom right, there are two buttons: 'CANCEL' and 'RUN REPORT'. The 'RUN REPORT' button is greyed out.

Filter Report Screen

- Fill out all required filters and click the **Run Report** button to generate the Report.

The screenshot displays the 'RM - Risk Committee Report' filter interface. At the top, there's a search bar and navigation tabs for 'Reports', 'Risk Management', 'Risk Management (Standard)', 'Compliance Management', and 'Internal Audit'. Below the title, a message states: 'Your report must be filtered prior to launch. To do so, please fill in all required filters and then click 'Run Report'.' The filter section contains several dropdown menus and date pickers. The 'Due Date - Issue' field is highlighted with a red box, showing a date range from 'September 1, 2023' to 'January 10, 2024'. At the bottom right, the 'RUN REPORT' button is highlighted with a red box, next to a 'CANCEL' button.

Run Report Button

Note:

If an administrator configures, filters can also be applied after loading the Report. See the Filters section below for more information.

- If the Report includes a bar, column, or pie chart, hover your cursor over the chart for more information about the data.

Tip:

If using a keyboard to navigate, press the **Tab** key to select a chart or legend and use the **Arrow** keys to navigate between chart or legend segments or items.

Chart Hover Over

- Clicking on a pie chart section will separate it from the rest of the chart for emphasis.

Chart Highlight

- If the report includes a heat map, hover your cursor over the objects on the heat map

(circle and unique IDs) to display the object's description.

Heat Map Object Description

7. Click an object (circle and unique IDs) for more detailed information.

RM - Risk Committee Report

More Detail

- If the report includes a table, click a cell to open the associated object in a pop-up screen for further details.

The screenshot shows the Resolver interface with a table of risks. A red box highlights the 'Cyber Security Risk' entry in the table. A red arrow points from this entry to a detailed pop-up screen titled 'RISK Cyber Security Risk'. The pop-up screen displays the following information:

- Risk Unique ID:** R-8.1.1.1
- Risk Name:** Cyber Security Risk
- Description:** Failure to protect organisation from cyber attacks where tactics include, but are not limited to; organisation-specific, specially designed malware's; manipulated hardware and firmware; the usage of stolen certifications; spies and informants; exploiting vulnerabilities in archaic hardware; attacking third-party service providers; etc. The tactics are known as advanced persistent threats.
- Risk Owner:** (Empty field)
- Risk Delegate:** (Empty field)

The pop-up screen also includes tabs for 'Details', 'Trending & Analysis', 'Manage Assessments', 'History', and 'Communications'.

Object Pop-up Screen

- Click a **Column Header** to sort the table by ascending (arrow icon up) or descending (arrow icon down) order based on the column's value.

The screenshot shows the Resolver interface with a table of risks. The 'Risk Unique ID' column header is highlighted with a red box. The table contains the following data:

Risk Unique ID	Risk Name	Inherent Risk Score	Control Effectiveness	Residual Risk Score	Risk Response Plan
R-8.1.1.1	Cyber Security Risk	Significant	Medium	Significant	Not Applicable
R-8.1.1	Cyber Security Risk	Significant	Medium	Significant	Not Applicable
R-32.3	Fiduciary Risk	Critical	Excellent	Significant	Tolerate - Accept
R-32.2	Fiduciary Risk	Critical	Excellent	Significant	Tolerate - Accept
R-32.1	Fiduciary Risk	Critical	Excellent	Significant	Tolerate - Accept
R-31.3	Succession Plan Risk	Significant	Medium	Significant	Not Applicable
R-31.2	Succession Plan Risk	Significant	Medium	Significant	Not Applicable
R-31.1	Succession Plan Risk	Significant	Medium	Significant	Not Applicable
R-8.2	Cyber Security Risk	Significant	Medium	Significant	Not Applicable
R-8.1	Cyber Security Risk	Significant	Medium	Significant	Not Applicable

Sort by Column

- Click the **Next** and **Previous** icons to scroll through additional table pages if the table has

multiple pages.

- Click the **Search** icon and enter a keyword to narrow the data results listed within the table.

Search Field

- Click the **Refresh** icon in the Toolbar at the top of the screen to refresh the report data. Please refer to the [Loading & Caching Report Data](#) article for more information on refreshing and reloading report data.

Refresh Icon

Starred Reports

- Click the **Star** icon in the **Toolbar** at the top of the screen.

Star Icon

- From the **Add Report to Home** screen, click the **Label Report** field to enter a custom report label or leave the field alone to use the default label.

Add Report to Home Screen

3. Click the **Make this report your landing page** checkbox to have the report open when you first log in, replacing the **Home** screen.

Report Home Screen

4. Click the + **Add to Home** link to add the report to your **My Task** list or to add the report as the new **Home** screen.
5. Click the highlighted **Star** icon.

Highlighted Star Icon

- From the **+ Add to Home** screen, click the **Remove from Home** button to remove the report from the **Home** screen.

Remove from Home button

Historical Data (Point in Time Reporting)

- Click the **Historical Data** icon in the **Toolbar** at the top of the screen.

Historical Data Icon

Note:

*If **Point in Time Reporting** has not been enabled for this report, the **Historical Data** icon will not be visible.*

- From the **Point in Time Reporting** screen, click the **Report Date** field and select a report date from the **Calendar** pop-up.

Calendar Pop-up

3. Click the **Apply** button to refresh the report with the historical data based on the Date selected from the **Calendar** pop-up.

Apply Button

Filters

The **Filters** icon will appear if configured by an Administrator.

1. Click the **Filter** icon in the **Toolbar** at the top of the screen.

Filter Icon

2. From the **Filter** pop-up, apply any of the following filters to narrow the data that appears on the report:

- **State:** Allows users to filter the table data by object workflow states (e.g., Creation, Draft, Active, and Archived).
- **Role:** Allows users to filter the table data by user roles granted direct access to objects from the report's data definition.
- **Date & Time:** Allows users to filter the table data by date and time values. If the field is configured to collect the date and time, the report is filtered based on the current user's time zone.
- **Select List:** Allows a user to filter table data by select list values (e.g., Low, Medium, High).
- **Formula:** Allows a user to filter table data by formula labels.
- **Relationship/Reference:** Allows a user to filter table data by one or more object type relationship or references. For example, selecting the Risk 1 object type in this filter will also display all the Control objects that Risk 1 appears on through a relationship.
- **Object Type:** Allow a user to filter table data by object type.

Note:

Sections may be blank if these filter types have not been added to the report by an administrator.

The screenshot displays the Resolver application interface. On the left, a sidebar shows the 'Reports' menu with 'Risk Management' selected. The main content area shows the 'RM - Risk Committee Report' for 'Riverdale Industries'. The report table has columns for 'Residual Likelihood' (Probable, Possible, Unlikely, Rare, Remote) and 'Net Loss (USD)'. A 'FILTERS' pop-up window is overlaid on the right side of the report. The pop-up contains several filter sections: 'Control Effectiveness', 'Date Identified - Issue' (with 'FROM' and 'TO' date pickers), 'Due Date - Issue' (with 'FROM' and 'TO' date pickers), 'Event Severity - Loss Event', 'Indicator Rating', 'Inherent Risk Score', 'Issue: Issue Owner' (with a search bar), and 'Net Loss (USD)'. The pop-up is outlined with a red border.

Filter Pop-up

3. Click the **Apply Filter** button to apply any selected filters to the table data.

Apply Filter Button

- The **Filter** icon will appear blue, indicating that there are filters applied to the table data.

Filter Icon

- Click the **x** beside a filter to remove the filter. If the filter is date-based, select the field and use the **Delete** or **Backspace** key to delete the dates from the fields.

Removing a Filter

- Click **Apply Filter** to save your changes.
