

Locating an Org's ID

Last Modified on 11/08/2024 10:21 am EST

Overview

An Organization's ID is used to execute multiple Swagger endpoints.

Navigation

- 1. Navigate to a browser, either Chrome[™] or Edge[®].
- 2. Log into the Resolver application.
- 3. From the *Home* screen, click the **F12** key on the connected keyboard.
- 4. From the *DevTools* pop-up, click the + button.

Plus Button

5. Select Applications from the dropdown menu.

Applications Link

6. From the *Applications* screen, expand the Local Storage node.

Local Storage Node

7. Click on the **Resolver URL**.

Resolver URL

Locating an Org's ID

• From the *Local Storage* screen, locate the **last-selected-org** label. The organization's ID will be listed after the label.
