

## Deleting a Dispatch Location Through Dispatch

Last Modified on 09/04/2024 2:03 pm EDT

## Overview

To delete a location, a Command Center administrator must delete its associated library object in the app. If a location is currently being used with a scheduled or active dispatch, officer, or task, you cannot delete that location or its indoor location.

Dispatch locations can also be deleted through Dispatch if the **Available in Dispatch** field on the location is set to no within the *Locations* screen in *Library* section within Resolver.

Available in Dispatch Field

If a location is associated with a closed dispatch (or its task), that location can't be deleted until the dispatch is no longer displayed on the **Closed Dispatches** panel. To specify how long closed dispatches will appear on the panel, see Configure Closed Dispatches.

## Navigation

1. From the *Dispatch Home* screen, click the **Settings** icon.
