

Creating a Secure Access Portal

Last Modified on 09/17/2025 9:28 am EDT

Overview

Note:

*Please contact your Customer Success Manager if you're interested in enabling the **Secure Access Portal** on your Org.*

Portal URLs with the **Secure Access** toggle enabled allow submitters to access their submissions at any time to add additional details to their reports, and communicate with the Resolver user reviewing their report.

User Account Requirements

The user account you use to log into Resolver must have Administrator permissions to create a **Secure Access Portal**.

Related Information/Setup

For further information on using a **Secure Access Portal** login URL, please refer to the [Using the Secure Access Portal](#) article.

For further information on accessing a **Secure Access Portal** report, please refer to the [Accessing a Secure Access Portal Report](#) article.

For further information on responding to a **Secure Access Portal** message in Resolver, please refer to the [Secure Access Portal Communications](#) article.

Navigation

1. From the **Home** screen, click the **Administration** icon.

Administration Icon

- From the **Administrator settings** menu, click the **Admin Overview** link.

Admin Overview Link

- From the **Admin Overview** screen, click the **Portal URL Settings** tile under the **Communications** section.

Portal URL Settings Tile

- From the **Admin: Portal URL Settings** screen, click the **Create Portal URL** button.

Create Portal URL Button

Creating a Secure Access Portal

- From the **Portal URL Settings: Create Portal URL** screen, enter a name for the Portal in the **Name** field.

The screenshot shows the 'Portal URL Settings: Create Portal URL' form. The title 'Portal URL Settings: Create Portal URL' is at the top. The form contains several fields: a text field for 'Name' (highlighted with a red box), a text area for 'Description', a dropdown for 'Type' (labeled '* Type'), and a dropdown for 'User' (labeled '* User'). Below these fields, there is a small text block: 'The selected user will be used to authenticate access to the Portal URL. Ensure the user assigned here only has permissions relevant to use the Portal. By associating this user to a Portal URL you are accepting the terms of services. These can be found at <http://www.resolver.com/legal>'. At the bottom, there is a checkbox for 'Enable IP Authorization Control' and two buttons: 'CANCEL' and 'CREATE'.

Name Field

- (Optional):** Enter a Portal description in the **Description** field. This description will appear below the Portal's name on the **Secure Access Portal** URL screen.

The screenshot shows the 'Portal URL Settings: Create Portal URL' form. The 'Name' field is set to 'Secure Portal'. The 'Description' field is a large text area, currently empty, and is highlighted with a red rectangle. Below the 'Description' field, there are dropdown menus for 'Type' (set to 'Select one...') and 'User' (set to 'Select one...'). At the bottom, there is a toggle switch for 'Secure Access' (currently off) and a 'CREATE' button.

Description Field

- From the **Type** dropdown menu, select **Form**.

The screenshot shows the 'Portal URL Settings: Create Portal URL' form. The 'Type' dropdown menu is highlighted with a red rectangle, and 'Form' is selected. Below the 'Type' dropdown, there is a toggle switch for 'Secure Access' (currently off). Further down, there are dropdown menus for 'Object Type' (set to 'Select one...'), 'Form' (set to 'Select one...'), and 'User' (set to 'Select one...').

Type Dropdown Menu

- Click the **Secure Access** toggle switch to turn it on.

The screenshot shows the 'Portal URL Settings: Create Portal URL' form. The 'Secure Access' toggle switch is highlighted with a red rectangle, and it is now turned on (indicated by a blue dot). The 'Type' dropdown menu is still set to 'Form'. Below the 'Secure Access' toggle, there are dropdown menus for 'Object Type' (set to 'Select one...'), 'Form' (set to 'Select one...'), and 'User' (set to 'Select one...').

Secure Access Toggle Switch

- From the **Object Type** dropdown menu, select an object type. The selected object type dictates which forms will be available to select from the **Creation Form** and **Access**

Form dropdown menus.

The screenshot shows the 'Portal URL Settings' form in the Resolver application. The form includes several dropdown menus: 'Type' (set to 'Form'), 'Object Type' (highlighted with a red box), 'Creation Form', 'User', 'Access Form', and 'Access Role'. The 'Secure Access' checkbox is checked. A red box highlights the 'Object Type' dropdown menu, which currently shows 'Select one...'. Below the form, there are 'CANCEL' and 'CREATE' buttons.

Object Type Dropdown Menu

- From the **Creation Form** dropdown menu, select the form to use to create a submission.

The screenshot shows the 'Portal URL Settings' form. The 'Object Type' dropdown is now set to 'Incident'. The 'Creation Form' dropdown is highlighted with a red box and shows 'Select one...'. The 'User' dropdown is also visible. The 'Secure Access' checkbox remains checked. 'CANCEL' and 'CREATE' buttons are at the bottom.

Creation Form Dropdown Menu

- From the **User** dropdown menu, select a Portal user. This list will only show users with the **Portal URL User** option selected on the **User Type** field on the **User Management: Edit User** screen.

The screenshot shows the 'Portal URL Settings' form. The 'Creation Form' dropdown is now set to 'Incident - IM - 1 - Confidential Submission'. The 'User' dropdown is highlighted with a red box and shows 'Select one...'. The 'Secure Access' checkbox is checked. 'CANCEL' and 'CREATE' buttons are at the bottom.

User Dropdown Menu

- From the **Access Form** dropdown menu, select the form to use to access a previously created submission.

The screenshot shows the 'Portal URL Settings' form in the Resolver application. The form includes several dropdown menus: 'Type' (set to 'Form'), 'Object Type' (set to 'Incident'), 'Creation Form' (set to 'Incident - IM - 1 - Confidential Submission'), and 'User' (set to 'Confidential Incident'). Below these is a checkbox for 'Enable IP Authorization Control' which is unchecked. The 'Access Form' dropdown menu is highlighted with a red rectangle, showing 'Select one...' as the current selection. Below it is the 'Access Role' dropdown, also showing 'Select one...'. At the bottom right are 'CANCEL' and 'CREATE' buttons.

Access Form Dropdown Menu

- From the **Access Role** dropdown menu, select a role to use to define the role permissions for the **Secure Access Portal** user accessing a previously created submission.

This screenshot shows the same 'Portal URL Settings' form, but with different selections. The 'Type' is 'Form', 'Object Type' is 'Incident', 'Creation Form' is 'Select one...', and 'User' is 'Confidential Submitter'. The 'Access Form' dropdown is still 'Select one...'. The 'Access Role' dropdown is highlighted with a red rectangle, showing 'Select one...'. The 'Enable IP Authorization Control' checkbox remains unchecked. 'CANCEL' and 'CREATE' buttons are at the bottom right.

Access Role Dropdown Menu

- Click the **Create** button.
