

Version 25.1.1ab (Third-Party Risk Management)

Last Modified on 07/30/2025 1:31 pm EDT

Improvements

- Due Dates have been enabled on the following Object Types to coincide with the Due Dates feature released in the 25.2 platform release:
 - Issue
 - Corrective Action
 - Policy
 - Indicator
 - Request
 - Task
 - Plan
 - Objective
 - Strategy
- All GRC applications in app base were tagged using the new App Tagging feature. The App Tagging feature allows Service members to update a customer's current environment with new and updated applications.
 - Rollout of this feature and process is dependent on enablement of the feature, which will be rolled out in the coming months.
