

Version 25.2 Release (Dispatch)

Last Modified on 09/23/2025 4:12 pm EDT

Officer Mobile Features

Autoclose for Officer-Created Dispatches

- The Autoclose for Officer-Created Dispatches system setting automatically closes Dispatches created in the Officer Mobile app once the task is cleared. The **Report to Follow** radio button defaults to **Yes**, and the **Activity Owner** field is set to the Officer assign to the Dispatch when the Dispatch is closed.

Assignment Notes

- The **Description** field is now editable on the **Create Dispatch** and **Dispatch Details** screens, allowing Officers to add and edit information on a Dispatch.

Dispatch Bug Fixes

- Notes (Person Log, Vehicle Log, Item Log, etc.) within Dispatch now save as expected, without having to reopen the record.
- Changing or clearing the Activity Sub Category on an Activity Type will no longer cause login failure error Data Synchronization Failed.
- Updates to the **Description** field on a **Location** in Resolver Core will sync to Dispatch as Location Notes.

Officer Mobile Bug Fixes

- Fixed an issue where Officer Mobile was failing to reconnect, preventing data from syncing when switching from Wi-Fi to LTE mode or the application was left idle.
- Long Messages within Officer Mobile will no longer be cut off, allowing Officers to view the full message.
- The Call Category Text overlap issue in Task Details was resolved, ensuring all text is visible.
