

Version 25.2.1 Release (Dispatch)

Last Modified on 10/31/2025 9:10 am EDT

Dispatch Bug Fixes

- ORG images will be displayed as intended when searching for an Org (dropdown), in On Duty view, and within the Organization screen.
- Closed Dispatch filtering will only include closed dispatches included in the selected operational zone.
- Officer alerts with a location will take precedence over officer alerts without a location.
- Resolved an issue where multiple Dispatch screens/tabs open simultaneously when launching Dispatch.
- Updates to Dispatches, Vehicles, Persons, Items, and Organizations will save properly.
